

## **Background Information**

1. TNPA/PEN Flyer
2. map of proposed walk route from 2007 Feasibility Study
3. plan of indicative sketch of 'overnight nodes' (ie, camping areas) from 2007 Feasibility Study

### **How to Frame Your Comment**

Please note the PWS requirements for making comment on the Tasman National Parks and Reserves Draft Management Plan 2008 –

- please make representation clear and concise
- say whether you agree or disagree with proposals of interest to you
- wherever possible give reasons
- it will help if you refer to the section numbers in the draft plan

If you want to see the full instructions or want further information about making representations, look at the PWS website – [www.parks.tas.gov.au](http://www.parks.tas.gov.au)

As this is the only opportunity for the public to make formal comment on the proposed Three Capes Walk, the TNPA encourages you to include in your submission all views that you have which you think are relevant and constructive in relation to the proposed Three Capes Walk and the proposed development, assessment and approvals process - as well as following the PWS guidelines for making comment.

It is important that your submission reflects your views, and it can be as long or short as you wish.

All submissions will be reviewed by both the PWS and the RPDC.

### **Important Background Documents**

*Tasman National Park (and Reserves) Management Plan 2001*

- this is the approved management plan that the draft 2008 plan will alter

(note – as the 2008 draft management plan is not an amended management plan, but simply the list of proposed changes, it is difficult to understand the proposed changes without referring to the 2001 management plan – you may also want to make comment on the way in which PWS has chosen to present the amendments as part of your comment).

*Pirates Bay Visitor Services Zone Plan 2007*

*Three Capes Track, Tasman National Park, Feasibility Study 2007*

- this is the document that sets out the details of the proposed Three Capes Walk including the market research, concept plan, business case and other background.
